Although ward one has an active candidate for the mayoralty in the person of Alderman E. C. Glysson, interest in the question of who shall succeed him as the ward's representative in the aldermanic sessions has not reached its height. Thus far only one name has been discussed at some length. George Robins of Robins Bros., granite manufacturers, is mentioned as a possible candidate whose qualifications seem to make him acceptable to many voters in that bailiwick.

Engineer A. P. Burnham of Perry street, who has been detained from his duties in the Barre & Chelsea yard for several days by an attack of the grip, was able to be out of doors yesterday.

John McHugh of Hill street, the veteran engineer on the air line, is again confined by illness and William Rivait, who has been ill for several days, is back at his post. Engineer Starkey of Montpelier is assisting in the local yard for a time.

Ledward, wife of his step-brother, whose death occurred at her home in Pembroke Sunday morning. A newspaper dispatch states that Mrs. Ledward was an active member of the First Methodist church and belonged to the Golden Rule circle of the King's Daughters. Besides her husband, she leaves her son, Arthur. Her husband, George A. Ledward, is well known in granite manufacturing circles as the proprietor of the New England Granite Co. He has been an occasional visitor in Barre.

A centrally located blacksmith near the office of Boutwell, Milne & Varum, is one of the additions to the corporation's quarry plant in Graniteville. The erection of a large and well equipped smithy will have the effect of eliminating some of the smaller blacksmith shops which dot the quarry yards wherever the holdings of the corporation extend. Motor cars which are to be propelled along steel tracks connecting with every quarry will carry tools to and from the central shop. The plan is calculated to expedite the work of supplying hundreds of quarrymen with sharp tools and will make for greater efficiency. Boutwell, Milne & Varum are the first to adopt motor cars for communicating with every quarry owned by them.

This evening in the council chamber at the city hall the aldermanic police and property committees, consisting of Aldermen Healy, Shurtleff, Glysson and Reynolds, will meet to discuss measures for diverting to the city treasury a stipulated monthly sum for the rental by the state of the city court room and the judge's office. Hitherto the state has had the free use of both rooms, but in the past year the question of charging a rental has been frequently agitated in council meetings and the matter will be thoroughly discussed by the committees before recommendations are made to the council. Those who favor a monthly or annual charge quote a section of the statutes which provides for the payment of court room rentals.
